Subject: Grant of type approval of Ship Security Alert System—TT 3000 SSA

Sir,

This is with reference to your communication No.DGS T&T SSA 29 dated 14th December 2003

In accordance with Regulation 6- Chapter X1-2 of SOLAS Convention, Ship Security Alert System shall be provided as applicable. The performance standards should conform to the requirement under IMO Resolution MSC.136 (76), revised by MSC 147 (77) and Resolution A 694 (17).

The provision under the stated Resolution does not require mandatory type approval for a Ship Security Alert System to be fitted on board, and hence, the Directorate is unable to grant type approval as requested.

There is no objection if "INWARASAT" Min -C MES-TT 3000 SSA Ship Security Alert System manufactured by M/s. Thrane of Thiane of Denmark forms a part of the Alert System as required under Regulation 6-Chapter X1-2 of SOLAS Convention on board Indian Ships. The fitment of such equipment shall be deemed to be in compliance with stated regulation, for Indian ships registered under the Merchant Shipping Act.

The Ship Security Alert System shall not be used for any other purposes such as unauthorized tracking other than the provisions under the stated regulation, unless authorized by owner or the Directorate General of Shipping.

The above acceptance is valid for a period of two years from the date of issue.

Yours faithfully,

(CAPT. L.K. PANDA)

DY. Nautical Adviser To The Govt. of India
