

## VIRTUAL PREPAID CALLING PINS

Stratos offers convenient Virtual Prepaid PINs for multiple satellite networks and services, including Inmarsat-A, B, M, mini-M, Fleet and Iridium, globally, as well as the regional North American MSAT\* service (Marinesat/Landsat/Oceancell/MSV). Virtual Prepaid PINs are ideal for crewmember social calling or for third party users of the most predominant satellite phones in the industry today.

Virtual Prepaid PINs are essentially the same as Prepaid Calling Cards (scratch cards) except that Stratos will simply email the PINs instead of shipping actual scratch cards. Virtual Prepaid PINs can also be used from shore to call out to a satellite phone from anywhere in the world. A toll free number is provided for the US and UK and an international number for all other countries.

The Stratos Prepaid PINs are available in denominations of 50, 150 and 400 units and are valid for a period of 12 months after the first call is placed. There is no charge for holding time, no per-call connect fee and no charge at all if the called party does not answer.

Since Stratos offers a full suite of satellite service types, all calls are rated in units as indicated in the table below. These PINs also provide voice prompts in English, Spanish and French.

All rates are global and also include fantastic discounted rates for Nights & Weekend calling for all Inmarsat digital services (mini-M, B, M and Fleet) for ship-to-shore calls. Nights and Weekends calling times are from 8 PM to 6 AM GMT in all ocean regions everyday, plus all weekend from 8 PM GMT Friday to 6 AM GMT Monday.

### Ship-to-Shore

From	To	Units Per Minute	
		Weekdays	Nights & Weekends
Inmarsat Mini-M	PSTN	10	6
Inmarsat Fleet	PSTN	14	10
Inmarsat-B	PSTN	14	10
Inmarsat-M	PSTN	14	10
Inmarsat-A	PSTN	26	NA
Iridium	PSTN	7	NA
GlobalStar	PSTN	10	NA
MSAT (MSV)	PSTN	7	NA

### Shore-to-Ship

From	To	Units Per Minute
PSTN	Inmarsat Mini-M	14
PSTN	Inmarsat Fleet	14
PSTN	Inmarsat-B	18
PSTN	Inmarsat-M	18
PSTN	Inmarsat-A	30
PSTN	Iridium	11
PSTN	MSAT (MSV)	11

Note: PSTN is Public Switched Telephone Network (standard home or office telephone).

## How to Use a Stratos Virtual Prepaid PIN

### Ship-to-Shore

From	Dial
Inmarsat Phone	75#
Iridium Phone	7575
MSat (MSV) or GlobalStar Phone	*75

Follow the voice prompts for language selection, enter Virtual PIN number and dial the phone number to call using country code, area code and number, followed by #. There is no charge unless the call is answered and there is no minimum connect fee per call.

### Shore-to-Ship

Dial the appropriate number as indicated below:

Within North America	1-888-626-9696
Within UK	0800-032-3207
All other countries	+1-718-269-0678

Calling To	Dial	Comments
Inmarsat-A	871 xxxxxxx # (AORE) 872 xxxxxxx # (POR) 873 xxxxxxx # (IOR) 874 xxxxxxx # (AORW)	87X + 7-digit Inmarsat-A number. If you get a recording indicating that the terminal is not in the ocean region, try the next 87X prefix.
Inmarsat-B Inmarsat-M Inmarsat Mini-M Inmarsat Fleet	870 xxxxxxxx #	870 + 9-digit Inmarsat number. Only the 870 prefix is required no matter where the terminal may be located. <i>This feature is not available for Inmarsat-A service. 87X can be used as above if ocean region is known.</i>
MSat (MSV)	1 500 xxxxxxx # or 1 600 xxxxxxx #	If you only know the 1-8XX number of the MSat phone you are calling, contact our customer care center to get the corresponding 500 or 600 number.
Iridium	8816 xxxx xxxx # or 8817 xxxx xxxx #	Global Service.
